Program of the Twenty-second Annual Meeting

Of

The American Society of Primatologists

Hosted by the College of Liberal Arts and the Regional Primate Research Center of Tulane University, New Orleans

August 12 – August 16, 1999

ASP Board of Directors

President                  Nancy Caine  
President-Elect  John Capitanio  
Past President  Melinda Novak  
Executive Secretary Janette Wallis  
Treasurer  Steve Schapiro

Chairs of the Standing Committees

Awards and Recognition  Gerry Ruppenthal  
Conservation  Randy Keyes  
Education  Lynne Miller  
Membership and Finance  Steve Schapiro  
Program  Mollie Bloomsmith  
Publications  Mike Andrews  
Research and Development  Kathryn Rasmussen

Historian

Peggy O’Neill-Wagner

ASP gratefully acknowledges the College of Liberal Arts and Sciences and the Regional Primate Research Center of Tulane University for their support of the 1999 meeting.
Local Arrangements Committee

Margie Clarke, Chair
Shelley Falkenstein, Co-chair
Lori Cormier
Conard Hamilton
Evan Zucker

Program Committee Members

Tammie Bettinger      Leslie Knapp
Maria Boccia          Rick Lee
J. Dee Higley         Leanne Nash
Bill Hopkins           Deborah Overdorff

The Program Committee thanks Karen Rader (Zoo Atlanta) for assistance with the compilation of the 1999 Program.

MEETING ROOMS

All sessions will be in the Fairmont Hotel, New Orleans. Plenary sessions will be held in the University Room. Oral presentation sessions, workshops, and roundtable discussions will be held concurrently in the University Room, the Gold Room, the Explorer’s Room, and the Mayor’s Chamber.

The two evening poster sessions will be held in the Emerald Ballroom. Food and beverages will be available.

REGISTRATION

Tables for registration and information (questions, help, messages, etc.) will be located in the Emerald Foyer. The registration area will open from 12:00 NOON on August 12 and remain open until 5:00PM that day. It will also be open 8:00AM to 5:00PM August 13 and 14, and 8:00AM to 12:00NOON August 15.
EXHIBITS, VENDORS, AND CONSERVATION SILENT AUCTION

Exhibits, vendors, and items donated for the Conservation Committee’s Silent Auction will be displayed in the Emerald Ballroom. Exhibits can be set up beginning at 12:00 NOON on August 12. Please visit and support the exhibitors and sponsors.

SLIDE PREVIEW ROOM

There will be a room available for speakers to preview their slides.

POSTER SET-UP

Individuals presenting posters can set-up their presentations in the Emerald Ballroom between 8:00AM and 5:00PM on the day of their poster session. Authors are encouraged to set-up posters well before the beginning of the sessions. Poster sessions will be between 5:00PM and 7:00PM on Friday, August 13, and Saturday, August 14. Authors should remove their posters immediately following the sessions. Food and beverages will be available during the poster sessions.

COFFEE BREAKS

There will be mid-morning and mid-afternoon snacks and drinks available in the Foyer area each day.

TOUR OF THE TULANE PRIMATE CENTER

A tour of the Tulane Primate Center will be possible on Monday, August 16. Pickup at the Fairmont Hotel will be at 8:30AM. The tour will require one hour travel time from New Orleans to the Center, two hours to tour the Center and breeding areas, and to eat, and one hour to return to New Orleans. To reserve a tour, notify Richard Harrison (harrison@tpc.tulane.edu) by August 9. The cost is $10.00, payable at the meeting before 4:00PM on Friday, August 13.

1998 STUDENT COMPETITION WINNERS

The American Society of Primatologists proudly acknowledges the winners of the 1998 Student Paper and Poster Competition, DeeAnn Reeder and Tina Gilbert.

Oral Paper:
D.M. Reeder, S.P. Mendoza, and W.A. Mason (University of California, Davis) Social behavior and sexual motivation across the reproductive cycle in titi monkeys (Callicebus moloch): Concealment or communication of ovulation?
Poster:
T.M. Gilbert, D.A. Brown, and S.T. Boysen (The Ohio State University) Social effects on behavior in capuchins (Cebus apella).
PROGRAM OVERVIEW

Thursday, August 12, 1999

9:00AM–4:30PM
Workshop: The care and management of captive chimpanzees: Retirement from laboratories to sanctuaries. L. Brent, F.L. Dolins, E. Toback, and M.A. Bloomsmith (organizers) (University Room)
[contact L. Brent for pre-registration; lbrent@icarus.sfbr.org]

12:00NOON—5:00PM: Registration (Emerald Foyer)
12:00NOON—5:00PM: Exhibits and Silent Auction Set-up (Emerald Ballroom)
1:00PM—6:00PM: Standing Committee Meetings (times vary)

6:00PM–8:00PM: Opening Reception [food and beverages] (Emerald Ballroom)

Friday, August 13, 1999

7:00AM – 8:00AM: Past Presidents’ Breakfast (Bailey’s Restaurant, Fairmont Hotel)

UNIVERSITY ROOM

8:00AM – 8:15AM
Welcome by Mollie Bloomsmith (Program Committee);
Margie Clarke (Local Host);
Teresa Soufas (Dean, College of Arts and Sciences, Tulane University);
Pete Gerone (Director, Tulane Primate Center, Tulane University);
Introductory Remarks by Nancy Caine (ASP President)

UNIVERSITY ROOM

8:15AM – 9:15AM
Keynote Address: Jeanne Altmann, “The role of social grooming in a primate society: From individuals through populations”

UNIVERSITY ROOM  GOLD ROOM  MAYOR’S CHAMBER

9:30AM—12:00NOON  9:30AM—11:30AM  9:30AM—12:00NOON
Session 1
Conservation
Session 2
Learning and Cognition, Part A
Session 3
Infant Development & Maternal Behavior
12:00 NOON—1:30 PM  Lunch
*American Journal of Primatology* Editorial Board Meeting (*Orleans Room*)

**UNIVERSITY ROOM**

1:30 PM—2:30 PM  Distinguished Primatologist’s Lecture: W. Richard Dukelow, “True Confessions of a Monkey Gynecologist”

---

**AFTEENOON**

**UNIVERSITY ROOM**

2:45 PM—4:45 PM  Session 4
Ecology

**EXPLORER'S ROOM**

2:45 PM—4:45 PM  Session 5
Learning and Cognition, Part B

**MAYOR'S CHAMBER**

2:45 PM—4:45 PM  Session 6
Breeding and Reproduction, Part A

---

**EVENING**

**EMERALD BALLROOM**

5:00 PM—7:00 PM  Session 7
Poster Session I: Breeding/Reproduction, Social Behavior, Colony Management/Enrichment, Demography/Population Studies/Genetics, Physiology/Endocrinology/Anatomy

---

**Saturday August 14, 1999**

**MORNING**

**UNIVERSITY ROOM**

8:00 AM—10:45 AM  Session 8
Social Behavior, Part A

**EXPLORER'S ROOM**

8:00 AM—9:45 AM  Session 9
Ecology and Nutrition

**MAYOR'S CHAMBER**

8:00 AM—10:30 AM  Session 10
Neuroscience, Endocrinology, Biomedicine and Physiology
UNIVERSITY ROOM

11:00AM—12:00NOON
Featured Speaker: Terry L. Maple, “Zoos as a niche for primatology (and primatologists)"

12:00NOON—1:30PM
Lunch
ASP Executive Committee Meeting (Tulane Room)

AFTERNOON

UNIVERSITY ROOM
1:30PM—3:30PM
Session 11
Colony Management and Enrichment

EXPLORER’S ROOM
2:00PM—5:00PM
Session 12

MAYOR’S CHAMBER
1:30PM—3:30PM
Session 13
Human Evolution, Anatomy, and Growth

Session 14
Roundtable Discussion: Is there life after graduate school? A roundtable discussion on career options beyond academia

EVENING

EMERALD BALLROOM
5:00PM—7:00PM
Session 15
### MORNING

**UNIVERSITY ROOM**
- 8:00AM—11:00AM
  - Session 16
  - Social Behavior, Part B

**EXPLORER’S ROOM**
- 8:00AM—11:00AM
  - Session 17
  - Workshop:
    - Technology in the wild:
    - A workshop on the technological advances in field primatology

**MAYOR’S CHAMBER**
- 8:00AM—10:00AM
  - Session 18
  - Roundtable Discussion:
    - Encouraging minority participation in primatology:
    - Launching an ASP initiative

### UNIVERSITY ROOM
- 11:00AM—12:00NOON
  - Featured Speaker: Stephen J. Suomi, “How do jumpy monkeys survive?”
- 12:00NOON—1:30PM
  - Lunch
  - ASP Board of Directors Meeting (*Director’s Room*)

### AFTERNOON

**UNIVERSITY ROOM**
- 1:30PM—3:15PM
  - Session 19
  - Breeding & Reproduction, Part B

**EXPLORER’S ROOM**
- 1:30PM—4:00PM
  - Session 20
  - Roundtable Discussion:
    - Environmental enrichment in the new millennium

**MAYOR’S CHAMBER**
- 1:30PM—3:30PM
  - Session 21
  - Workshop
    - Bringing Science to the Public:
      - A workshop in giving effective presentations

- 4:00PM—5:30PM
  - ASP Business Meeting
EVENING

6:30PM—7:00PM  Board boat for Dinner Cruise
7:00PM—10:00PM  Dinner Cruise
10:00PM—11:00PM  Boat docked for final hour of party

Monday, August 16, 1999

MORNING

8:30PM—1:00PM  Tour of Tulane Primate Center and Lunch
Thursday, August 12, 1999

12:00 NOON – 5:00PM: Registration (Emerald Foyer)
12:00 NOON – 5:00PM: Exhibits and Silent Auction Set-up (Emerald Ballroom)

Standing Committee Meetings
- Awards and Recognition: 1:00PM - 2:00PM (Suite A)
- Conservation: 1:00PM - 6:00PM (Chancellor’s Room)
- Education: 2:00PM - 5:00PM (Suite B)
- Membership and Finance: 1:00PM - 3:00PM (Mayor’s Chamber)
- Program: 2:00PM - 5:00PM (Tulane Room)
- Publications: 3:00PM - 6:00PM (Mayor’s Chamber)
- Research and Development: 2:00PM - 5:00PM (Suite A)

[contact L. Brent for pre-registration; lbrent@icarus.sfbr.org]

6:00PM – 8:00PM: Opening Reception (Emerald Ballroom)
[food and beverages]

Friday, August 13, 1999

MORNING

7:00AM – 8:00AM: Past Presidents’ Breakfast (Bailey’s Restaurant, Fairmont Hotel)

8:00AM – 8:15AM: Welcome by Mollie Bloomsmith (Program Committee), Margie Clarke (Local Host), Teresa Soufas (Dean, College of Arts and Sciences, Tulane University), Pete Gerone (Director, Tulane Primate Center, Tulane University).
Introductory Remarks by Nancy Caine (ASP President) (University Room)
8:15AM – 9:15AM  Keynote Address: Jeanne Altmann, “The role of social grooming in a primate society: From individuals through populations” [1] (University Room)

9:30AM – 12:00NOON:  Session 1: Conservation  (J. Paterson, Chair) (University Room)

9:45 Community-based ecotourism for primate conservation and economic development in Central Sulawesi, Indonesia. J. Froehlich and N. Babo [69]

10:00 Survey of the distribution and diversity of primates in Northwest Guyana. S. Lehman and M. Mayor [105]

10:15 Snare injuries to chimpanzees (Pan troglodytes) at 10 study sites in East and West Africa. E.J. Stokes, V. Reynolds, and D. Quaitt [176]

10:30 Intestinal parasite loads in western lowland gorillas (Gorilla gorilla gorilla), chimpanzees (Pan troglodytes) and researchers in Dzanga-Ndoki National Park, Central African Republic. A. Lilly and D. Doran [109]

10:45 Reintroducing captive-born lemurs to the wild. K. Glander, C. Welch, A. Katz, and A. Britt [75]

11:00 Back to the wild: Captive-bred black and white ruffed lemurs (Varecia variegata variegata) on St. Catherine’s Island. R. Lessnau, A. Kaylor, and S. Staaden [107]

11:15 A survey of pest primate status along the Masindi-Butiaba Road in Masindi District, Uganda. J. Paterson [134]

11:30 Age-sex class differences in the time budget and feeding strategies of members of a crop and food-raiding vervet group in Entebbe, Uganda. T. Saj, P. Sicotte, and J.D. Paterson [158]

11:45 Listening at night in Belize is important for locating and relocating black howler monkeys (Alouatta pigra luctuosa). J. Dahl [53]

9:30AM – 11:30AM:  Session 2:  Learning and Cognition, Part A (W. Hopkins, Chair) (Gold Room)

9:30 Laterality and communicative aspects of manual and pedal activity in captive chimpanzees. E.L. Toback [185]

9:45 Hand preferences for visuospatial reaching in the bushbaby (Otolemur garnettii). M. Hook-Costigan, M. Rehlander, C. Cantalupo, and J. Ward [85]

10:00 Laterality patterns and interactions in the small-eared bushbaby (Otolemur garnettii). C. Cantalupo and J. Ward [38]

10:30 Perceptual contributions to scale model comprehensions in chimpanzees. V. Kuhlmeier, S. Boysen, and K. Mukobi [100]

10:45 Organization of movement by rhesus monkeys, apes and humans in computer-presented maze tasks. C. Menzel, S. Savage-Rumbaugh and E. Menzel, Jr. [123]

11:15 Sex and age differences in cognition in the rhesus monkey (Macaca mulatta). A. Lacreuse, J. Herndon, R. Killiany, D. Rosene, and M. Moss [101]

9:30AM – 12:00NOON:  Session 3: Infant Development and Maternal Behavior (G. Sackett, Chair) (Mayor’s Chamber)

9:30 Juvenile-Infant relationships among captive lowland gorillas. M. Hoff, K. Hoff, and T. L. Maple [82]

9:45 Long term behavioral consequences of brief early maternal separation experiences in bonnet and pigtail macaques (Macaca nemistrina and M. radiata). R.L. Richardson, W.L. MacCannell, and M.L. Laudenslager [147]

10:00 Long-term effects of maternal ACTH exposure on offspring in rhesus monkeys. S. Clarke, E. Hayes, and A. Soto [46]

10:15 Growth, health, and reproduction following nursery rearing in Macaca nemestrina. G.P. Sackett and G.C. Ruppenthal [157]

10:30 The effect of environment and group composition on the behavior of a surrogate mother gorilla and her infant. L.R. Tarou, M. Hoff, and T.L. Maple [182]

11:00 Measuring relationship quality in brown capuchins (Cebus apella). A. Weaver and F. de Waal [194]

11:15 Food transfer between mother and infant chimpanzees in the wild: Generous mothers or scrounging infants? C. Assersohn and A. Whiten [15]

11:30 Age differences in alarm peep response by squirrel monkeys. G.A. Vicinio, B. McCowan, and N.V. Franceschini [188]
11:45  Parental care in captive common marmosets (*Callithrix jacchus*) and cotton-top tamarins (*Saguinus oedipus*). M. Bardi and A.J. Petto [19]

**AFTERNOON**

**12:00**NOON – 1:30PM  Lunch Break  
*American Journal of Primatology* Editorial Board Meeting (Orleans Room)

2:45PM – 4:45PM:  Session 4: Ecology (P. Mehlman, Chair) (University Room)

2:45  Group nest counts in western lowland gorillas (*Gorilla gorilla gorilla*), Mondika Research Center, Central African Republic. P. Mehlman and D. Doran [122]

3:00  Eat or be eaten: Predation sensitive foraging in capuchin monkeys. L. Miller [124]

3:15  The role of primates in determining tropical forest composition: Specific tests with seed dispersal, Kibale National Park, Uganda. S. Balcomb and C. Chapman [17]

3:30  The role of howler monkeys (*Alouatta palliata mexicana*) as dispersal agents of the genus *Ficus*: A keystone species of the tropical rain forest. J.C. Serio-Silva and V. Rico-Gray [165]

3:45  Phytochemicals and energy yield for *Khaya* bark consumed by Budongo Forest baboons. J. Paterson, J. Teichroeb, L. Rabatach, D. Fournel, and P. Fachini [135]

4:00  Feeding ecology of one group of Humboldt’s black uakari (*Cacajao melanocephalus melanocephalus*) in a forest on white-sand soils of Pico da Neblina National Park, Brazil. J. Boubli [31]

4:15  Foraging ecology of the mountain monkey (*Cercopithecus l’hoesti*) in Rwanda: Implications for its evolutionary history and use of disturbed forest. B. Kaplin [96]

4:30  Diet and food choice in Eastern black and white colobus monkeys in the Kakamega Forest. P. Fashing [59]

2:45PM – 4:45PM:  Session 5: Learning and Cognition, Part B (G. Westergaard, Chair) (Explorer’s Room)

3:00  A chronometric analysis of the chimpanzees’ (*Pan troglodytes*) abilities to determine same/different relations between abstract representations of quantity. G. Himes, S. Boysen, and K. Mukobi [80]
3:15 Chimpanzee food barks as referential signals: Evidence from a laboratory playback experiment. K. Hallberg, S. Boysen, and K. Mukobi [78]

3:30 Self-judgement of performance by chimpanzees (Pan troglodytes). S. L. Williams, M.J. Beran, and D.M. Rumbaugh [197]

3:45 Token-mediated tool-use by a tufted capuchin monkey. G.C. Westergaard [196]

4:00 Exposure to novelty enhances problem-solving proficiency in cynomolgus macaques (Macaca fascicularis). S. Watson, R. Stavisky, and J. Kaplan [193]

4:15 Categorization of natural stimuli by captive chimpanzees using a same-different task. D. Brown, K. Mukobi, and S. Boysen [34]

4:30 Feeding skills and the effect of injury on chimpanzees of the Budongo Forest, Uganda. E.J. Stokes and R.W. Byrne [175]

2:45PM – 4:45PM: Session 6: Breeding and Reproduction, Part A (M.K. Izard, Chair) (Mayor’s Chamber)

2:45 The function of female mate choice in the Sumatran orangutan (Pongo pygmaeus abelli). E. Fox, L. McGeehan, N. Czekala [65]

3:00 Male mate choice and social rank in Macaca mulatta. A. Rifkin, J. Mann, and P. O’Neill-Wagner [149]

3:30 Female social preferences and mating behavior in corral-living Savanna baboons (Papio cynocephalus anubis). R. D. Schneider [162]

3:45 Spatial associations in captive female bonobos (Pan paniscus) across the ovarian cycle. A. Bukowinski, M. Jurke, S. Jurke, and N. Harvey [35]

4:00 Reproductive statistics in a specific pathogen-free breeding colony of rhesus macaques (Macaca mulatta). K. Litton and M. Izard [110]

4:15 Reproductive performance in primiparous Indonesian and Chinese cynomolgous macaques (Macaca fascicularis). M. Izard and D. Taub [91]

4:30 Effect of early and late permanent infant separation on lactational amenorrhea of pigtailed macaques (Macaca nemestrina). N. Maninger, G. Sackett, and G. Ruppenthal [118]

**EVENING**

5:00PM – 7:00PM: Session 7: Poster Session I: Breeding/Reproduction, Social Behavior, Colony Management/Enrichment, Demography/Population Studies/Genetics, Physiology/Endocrinology/Anatomy (Emerald Ballroom)

**Breeding/Reproduction**

1. Reproductive behavior and early development of a captive colony of common marmosets (*Callithrix jacchus jacchus*) in a Mexican zoo. M. Parra-Sanchez, J. Serio-Silva, S. Ruiz, and F. Camacho-Wardle [133]

2. Fetal gender does not significantly affect prolonged gestation in captive *Macaca nemestrina*. A. Lichtenwalner, D. Koberstein, and C. Bowers [108]

**Social Behavior**

8. An experimental dominance test in wild golden lion tamarins. R. Lake, K. Bales, and J. Dietz [102]

10. The function of food sharing with infants in the golden-head lion tamarin (*Leontopithecus chrysomelas*). A.C. de A. Moura and A. Langguth [125]

12. Female age class and mate competition in social groups of rhesus monkeys (*Macaca mulatta*). M. Huynen and M. Clarke [89]
13. Female familiarity and relatedness in captive groups of rhesus monkeys (*Macaca mulatta*). M. Huynen and M. Clarke [90]

15. Eliciting anointing behavior in capuchin monkeys (*Cebus apella*). T. Gilbert and S. Boysen [73]

16. Urine washing in tufted capuchins (*Cebus apella*): Relationship with air temperature and relative humidity in indoor and outdoor conditions. M. Carosi and A. Rosofsky [40]

17. The social behavior of captive Philippine and Indochinese long-tailed macaques following transfer to a new facility. L. Brent and Y. Veira [33]

18. The impact of N-3 fatty acid supplementation during infancy on later social behavior. M. Purple, K. Zajicek, C. Shannon, R. Hommer, and C. Champoux [142]

20. The development of social behavior in *Macaca nemestrina* infants socialized in the dark. C. Ferrier, J. Kim, J. Worlein, G. Sackett, and V. Gunderson [62]

21. Two takeovers in wild hamadryas baboons (*Papio hamadryas hamadryas*) and the subsequent re-acquisition of a female by a deposed leader male. L. Swedell [181]

**Colony Management/Enrichment**

22. Day nest building and nest use by captive chimpanzees (*Pan troglodytes*). L. Casler and L. Nash [41]

23. Ontogeny of positional behavior in captive chimpanzees (*Pan troglodytes*). M.L. Schwandt [163]

25. Behavioral profiles of laboratory monkeys referred to a regional primate research center’s psychological well-being program. R.U. Bellanca, K.S. Heffernan, J.E. Grabber, and C.M. Crockett [22]

Demography/Population Studies/Genetics

27. Immature-to-adult ratios over time in two groups of Costa Rican mantled howling monkeys (*Alouatta palliata*): Annual variations and comparison with population parameters. E.L. Zucker and M.R. Clarke [200]

31. Comparison of methods used to census mantled howlers in the dry tropical forests of Costa Rica. M. Clarke, C. Crockett, and E. Zucker [45]

Endocrinology/Physiology/Anatomy

32. Urinary endocrine profiles and behavioral patterns of young adult and aged male orangutans. A.N. Maggioncalda, R. Sapolsky, and N. Czekala [117]

33. Heart rate patterns in rhesus monkeys with self-injurious behavior (SIB): Are these monkeys “high reactors?” W. Chase, L. Marinus, M. Jorgensen, K. Rasmussen, S. Suomi, and M. Novak [43]

34. Reaction of rhesus monkeys with self-injurious behavior to heart rate testing: Is biting a coping strategy? L. Marinus, W. Chase, K. Rasmussen, M. Jorgensen, and M. Novak [120]

36. Detailed description of the structure of the larynx in the small-eared bushbaby (*Otolemur garnettii*). J. Kahane, M. Becker, and J. Ward [94]

37. The occurrence of a bone-like structure in the clitoris of female tufted capuchins (*Cebus apella*). M. Carosi and M. Haines [39]
Saturday August 14, 1999

MORNING

8:00AM – 10:45AM: Session 8: Social Behavior, Part A (M.S. Gerald, Chair) (University Room)

8:00  Delayed pair bond formation in common marmosets: Sex is not enough. R. L. Roberts, E.M. Uri, and J.D. Newman [150]

8:15  Female homosexual behavior among free-ranging rhesus macaques (*Macaca mulatta*). E. Kapsalis and R. Johnson [97]

8:30  Mating behavior and success of hybrid male baboons (*Papio hamadryas hamadryas x Papio hamadryas anubis*) in Ethiopia’s Awash National Park. T.J. Bergman [25]

8:45  Reproductive inhibition, low aggression, and cooperative imperatives: A prescription for peaceful living? C. M. Schaffner, N.G. Caine, B.L. Addington, and T.E. Smith [161]

9:00  Scrotal color predicts aggressive behavior and reveals social status in vervet monkeys (*Cercopithecus aethiops sabaeus*). M. Gerald [70]

9:15  Counter-aggression in Assamese macaques (*Macaca assamensis*): When dominance relationships break down. M. Cooper and I. Bernstein [48]

9:30  Lethal intra-community gang aggression directed at a young adult male chimpanzee in the Sonso Community, Budongo Forest, Uganda. K. Fawcett [61]

9:45  Hormonal and behavioral responses of marmosets (*Callithrix kuhlii*) to social intruders. C.N. Ross, J.A. French, and K.J. Patera [153]

10:00 Functions of vigilance in wild white-faced capuchins (*Cebus capucinus*) in Costa Rica. L.M. Rose [151]

10:15 Dominance, coalitions, and sub-grouping patterns of Brazilian tufted capuchin monkeys (*Cebus apella*). J.W. Lynch. [115]

8:00AM – 9:45AM: Session 9: Ecology and Nutrition (J. Chism, Chair) (Explorer’s Room)

8:00 Intergroup encounters in wild patas monkeys (*Erythrocebus patas*) in Kenya. J. Chism [44]

8:15 Population dynamics and male leader tenures among Formosan macaques at Mt. Longevity, Taiwan. M. Hsu and G. Agoramoorthy [87]
8:30 Adolescent dip in indices of central serotonergic activity among free-ranging rhesus monkeys. J. Kaplan, M. Fontenot, J. Berard, L. Fairbanks, and J. Mann [95]

8:45 Sun avoidance in the yellow baboons (Papio cynocephalus cynocephalus) of Ruaha National Park, Tanzania: Variations with season, behavior and weather. S. Pochron [139]

9:00 Niche separation between grey-cheeked mangabeys and gorillas during a poor fruit season at Bai Hokou, Central African Republic. M.J. Remis [146]

9:15 Ecology and behavior of Mexican howler monkeys (Alouatta palliata mexicana) in a fragmented area: Eight years of data. J.C. Serio-Silva, and J. Bello-Gutierrez [164]

9:30 Maternal-fetal transfer of iron deficiency in rhesus monkeys (Macaca mulatta). G. Lubach and C. Coe [112]

8:00AM – 10:30AM: Session 10: Neuroscience, Endocrinology, Biomedicine, and Physiology (T. Bettinger, Chair) (Mayor’s Chamber)

8:00 CFS Monoamines, age and impulsivity in wild grivet monkeys (Cercopithecus aethiops aethiops). L. Fairbanks, M. Fontenot, J. Phillips-Conroy, C. Jolly, J. Kaplan, and J. Mann [58]

8:15 The entorhinal cortex in aged chimpanzees (Pan troglodytes): Stereologic analyses of neuron number and volume. P. Hof, D. Perl, E. Nimchinsky, and J. Erwin [81]

8:30 Behavior and salivary cortisol in an all-male gorilla group. T. Bettinger, C. Kuhar, A. Sironen, M. Goldstein, and M. Laudenslager [26]

8:45 Immune functioning and reactivity predict hand preference in rhesus macaques. G.C. Westergaard [195]

9:00 Tympanic membrane temperatures reflect lateralization in a language-trained ape (Pan troglodytes). S.L. Williams and D.M. Rumbaugh [198]

9:15 Catchers in the mangroves: Hand preference of free-ranging male and female rhesus macaques (Macaca mulatta) in catching thrown peanuts. R. Johnson and E. Kapsalis [92]

9:30 Behavioral and physiological characteristics that predict subsequent behavioral depression in female cynomolgus monkeys (Macaca fascicularis). C.A. Shively, K. Laber-Laird, and R.F. Anton [169]

9:45 Perineal swelling during pregnancy in chimpanzees (Pan troglodytes) is an external marker of steroid hormones. J. Dahl and W. Hopkins [54]

10:00 Gonadal steroid concentrations influenced by levonorgestrel: Implanted versus non-implanted females of Macaca sylvanus. B. Wallner, K. Schäfer, and E. Möstl [190]

11:00AM – 12:00 NOON: Featured Speaker: Terry L. Maple “Zoos as a niche for primatology (and primatologists)” [3] (University Room)

AFTERNOON

12:00NOON – 1:30PM Lunch
ASP Executive Committee Meeting (Tulane Room)

1:30PM – 3:30PM : Session 11: Colony Management and Enrichment (C. Cox, Chair) (University Room)

1:30 The impact of hay provision on gorilla nest-building at Zoo Atlanta. K. Lukas, T.S. Stoinski, R. Snyder, S. Bexell, K. Burks, and T. L. Maple [113]

1:45 Chimpanzee use of enclosures. M.A. Bloomsmith, S.P. Lambeth, and M.D. Haberstroh [28]

2:00 Effects of exhibit conditions on chimpanzee activities. C. Cox and S. Wilcox [50]

2:30 Affiliative interactions between singly-housed rhesus macaques in adjacent unmodified cages. K. Baker [16]

2:45 The behavior of captive male chimpanzees (Pan troglodytes) housed in multi-male bachelor versus mixed-sex social groups at the Primate Foundation of Arizona. J. Fritz and S. Howell [68]

3:00 Environmental effects on female social behavior during pregnancy and infant development in captive squirrel monkeys (Samiri boliviensis): Implications for management. M. Glasgow, L. Williams, and M. Clarke [76]

3:15 Effect of temperature on sun avoidance behaviors of Gorilla gorilla gorilla at the Rio Grande Zoo. J. Rowe and J. Perry [156]

2:00PM – 5:00PM: Session 12- Workshop: The African bushmeat crisis: New findings, theory, and solutions. T.S. Stoinski and A.L. Rose (organizers) [7] (Explorer’s Room)

1:30PM- 3:30PM: Session 13: Human Evolution, Anatomy and Growth (C.J. Jolly, Chair) (Mayor’s Chamber)

1:30 Towards a proximate model of baboon speciation. C. Jolly and J. Phillips-Conroy [93]
1:45 An evolutionary perspective on dental development in the siamang (*Symphalangus syndactylus*) from histology and radiography. W. Dirks [56]

2:00 Ontogeny and function in the evolution of African ape masticatory form. A.B. Taylor and M.J. Ravosa [183]

2:30 Functional integration in the craniofacial skeleton of adult *Macaca mulatta*. B. Behrens [21]

2:45 Gradient interactions and hominid body plans. D.B. Swartz [179]

3:00 Analysis of body weight in chimpanzees and gorillas: A functional interpretation. R. McFarland and A. Zihlman [121]

3:30PM – 5:00PM: Session 14-Roundtable Discussion: Is there life after graduate school? A round-table discussion on career options beyond academia (L.E. Miller, organizer; sponsored by the ASP Education Committee) [10] (Mayor’s Chamber)

**EVENING**

5:00PM – 7:00PM: Session 15: Poster Session II: Conservation/Ecology, Learning/Cognition, Maternal Behavior/Infant Development, Neuroscience/Biomedicine, Research Methods (Emerald Ballroom)

**Conservation/Ecology**

2. Cultural implications for neotropical conservation on the Carú indigenous reserve, Maranhão, Brazil. L. Cormier [49]

3. Integrated models for conservation: A case study of the commercial bushmeat trade of chimpanzees and gorillas in Cameroon. C. Ellis [57]

5. Variation in food intake and bout duration in two prosimian primates: Implications for sex differences. D. Overdorff, S. Strait, and R. Selzer [131]

6. The fate of primate-dispersed seeds. J. Lambert [103]
7. The use of pristine and disturbed forests by wild golden-headed lion tamarins (*Leontopithecus chrysomelas*) in Una, Brazil. B.E. Raboy and J.M. Dietz [144]

9. Sleeping habits of golden-faced sakis in a forest fragment in the central Amazon. E. Setz [166]

10. Densities and biomass of diurnal primates in the Kakamega Forest, Kenya. P. Fashing and M. Cords [60]

11. Comparative ecology of redtail monkeys (*Cercopithecus ascanius schmidti*) in logged and unlogged forest compartments of the Budongo Forest Reserve, Uganda. D.J. Sheppard. [168]

**Learning/Cognition**

13. Detecting environmental constraints in a tool task by capuchins. S. Cummins [52]

15. Capuchin monkeys (*Cebus apella* and *Cebus apella apella*) show a von Restorff effect in a visual list memory task. A. Machado, A. Wright, and J. Katz [116]

17. An assessment of the stability of trait curiosity in the small-eared bushbaby (*Otolemur garnettii*). S. Watson and J. Ward [192]

18. How to get from here to there: Mastery of a joystick by naïve capuchins (*Cebus apella*). K. Leighty, K. McCormack, and D. Fragaszy [106]

**Maternal Behavior/Infant Development**

20. Captive olive baboon infant development and mother-infant proximity. V. Bentley-Condit [24]

21. Fear response to familiar and unfamiliar observers as compared to behavior in a novel environment in infant rhesus macaques. K.B. Zajicek, C. Fahlke, and J.D. Higley [199]
22. Motherhood and personality: Emotions profile index assessment of female rhesus monkeys (*Macaca mulatta*) with and without infants. N. Klepper-Kilgore [98]

25. The impact of infant care on sleep in marmosets (*Callithrix kuhlii*): Is less or disrupted sleep an additional cost of providing care to infants? J. Fite and J. French [64]

**Neuroscience/Biomedicine**

27. Behavioral response to novel objects varies with CSF 5-HIAA concentrations in rhesus monkeys. T.W. Tsai, A.J. Bennett, P.J. Pierre, S.E. Shoaf, and J.D. Higley [186]

28. CNS Monoamine metabolites and plasma hormones as predictors of alcohol consumption in rhesus macaques (*Macaca mulatta*). A.C. Hurley, S. Lindell, D. Hommer, S. Shoaf, and J. D. Higley [88]

29. The effect of an oral corticotropin releasing hormone (CRH) antagonist on the response of male rhesus monkeys to other males. J. Pushkas, K.P. Weld, P.W. Gold, and J. D. Higley [143]

**Research Methods**

31. Utilization of video and motion analysis software in the study of primate locomotor kinematics. L. Shapiro and J. Cooper [167]

32. Assessing behavioral reactivity in juvenile pigtailed macaques: Slides vs. video. R.A. Skiver and R.C. Kyes [171]

34. Can spectographic analysis of roars be used to identify individual male black howler monkeys (*Alouatta pigra*)? D. Bocian, C. Aday, A. Gavazzi, H. Markowitz, and L. Baptista [29]

35. An assessment of Primatology in the 1990’s. S. Howell [86]

Sunday, August 15, 1999

MORNING

8:00AM - 11:00AM: Session 16: Social Behavior, Part B (C.A. Bramblett, Chair) (University Room)

8:00 A day in the life of a wild spider monkey (Ateles geoffroyi). C. Bramblett and S. Bramblett [32]

8:15 Food sharing relationships among adult lion tamarins. L.G. Rapaport [145]

8:30 Affiliative behaviors of group housed rhesus macaques are altered by positive reinforcement training. J. Perlman, B. Boudreau, and S. Schapiro [136]

8:45 Female friendships in a non-female-bonded species: Social relationships between females in wild hamadryas baboons (Papio hamadryas hamadryas). L. Swedell [180]

9:00 Influence of peers on the social development of captive juvenile rhesus macaques (Macaca mulatta). N. Cobb [47]

9:15 Fur rubbing behavior in free-ranging black-handed spider monkeys (Ateles geoffroyi) in Panama. C. J. Campbell [37]

9:30 Intergroup variation in social conventions in wild white-faced capuchins. S. Perry [137]

9:45 A new “founder effect” – establishment of dominance in wild golden lion tamarin groups. K. Bales and J.M. Dietz [18]

10:00 Correlates of self-directed behavior in wild white-faced capuchins (Cebus capucinus). J.H. Manson and S. Perry [119]

10:15 Results of a pilot study on lowland gorillas (Gorilla gorilla gorilla) behaviors at the Dzanga-Sangha Reserve Bais in the Central African Republic. L.M. Watson [191]

10:30 Effects of rearing history and housing conditions on the social behaviors of zoo living Geoffry’s tamarins (Saguinus geoffroyi). C. Kuhar, A. Sironen, and T. Bettinger [99]

10:45 Personality profiles in zoo chimpanzees (Pan troglodytes). C. Guggenheim and J. King [77]
8:00AM – 11:00AM: Session 17-Workshop: Technology in the wild: A workshop on the technological advances in field primatology (J. Wallis, organizer) [8] (Explorer’s Room)

8:00AM- 10:00AM: Session 18-Roundtable Discussion: Encouraging minority participation in primatology: Launching an ASP initiative. (K.L.R. Rasmussen, organizer) (Mayor’s Chamber)

Participants: M. Bloomsmith, J. Gonzalez, L. Jacobsen, M. Kessler, A. Petto, S. Schapiro, K. Swartz

11:00AM – 12:00NOON: Featured Speaker: Stephen J. Suomi “How do jumpy monkeys survive?” [4] (University Room)

AFTEENNOON

12:00NOON - 1:30PM: Lunch
ASP Board of Directors Meeting (Director’s Room)

1:30PM – 3:15PM: Session 19: Breeding and Reproduction, Part B (J.A. French, Chair) (University Room)

1:30 Seasonal aspects of sociosexual behavior in two chimpanzee populations: A comparison of Gombe (Tanzania) and Budongo (Uganda). J. Wallis and V. Reynolds [189]

2:00 A multi-species comparison of the time spent in adolescence. T. Mueller [126]

2:15 Human reproduction, the evolution of the brain, and fat storage. J. Lancaster and D. Crumley [104]

2:30 Effect of season on occurrence of urethral prolapse in young nulliparous female squirrel monkeys (Saimiri boliviensis boliviensis). S. Gibson, T. Kuehl, L. Williams, and C. Abee [72]

1:30PM – 4:00PM: Session 20-Roundtable Discussion: Environmental enrichment in the new millennium S.P. Lambeth and L. Brent (organizers) [9] (Explorer’s Room)
1:30PM – 3:30PM: Session 21-Workshop: Bringing Science to the Public: A workshop in giving effective presentations. (L.E. Miller, organizer; sponsored by the ASP Education Committee) [6] (Mayor’s Chamber)

4:00PM – 5:30PM: ASP Business Meeting (Explorer’s Room)

EVENING

6:30PM – 7:00PM: Board boat for Dinner Cruise
7:00PM – 10:00PM: Dinner Cruise
10:00PM – 11:00PM: Boat docked for final hour of party

Monday, August 16, 1999

MORNING

8:30AM – 1:00PM: Tour of Tulane Primate Center and Lunch
